

HVP Chatroom

What are some of your favorite homemade cleaning products?

"I use vinegar as a glass cleaner and surface cleaner. It kills germs and is safe for the kids and animals — and it cleans! Your house smells like a salad for a half hour, then nothing, lol."

— **Graceanna Carratu,**
Wappingers Falls

"I mix vinegar, water, and tea tree oil and use it as a surface cleaner. I also use baking soda and vinegar as a toilet cleaner. We go through a lot of vinegar in this house!"

— **Dawn Green, Saugerties**

"Heat up lemon juice — it loosens grease and makes it easier to clean."

— **Danielle Todaro,**
Washingtonville

"I mix hydrogen peroxide with water and about 10 drops of essential oil (I like wild orange scent). I find it cleans better than vinegar and has zero odor. I use it to disinfect kitchen and bath surfaces and I use it on my floors. It removes hard water stains on tile and porcelain like a champ! I mix it with baking soda to scrub my stainless steel sink, bath tub and toilet."

— **Roxanne Ferber,**
Saugerties

"Plain vinegar — it whitens and clean at the same time and it's useful for everything!"

— **Shirley Carrasco,**
Montgomery

We take pride in providing quality, individualized, and personal care in a truly warm and friendly environment.
